

This letter is written by me strictly as a private citizen.

I am concerned that the American people's airways are already too concentrated in the hands of those who do not look out for the interests of all the American people.

I would like to the FCC rules strengthened to assure that our news is available from a multitude of mainstream and alternative views.

I ask you to vote to retain current rules when you make the 2nd June vote on ownership.

Sincerely,

Konrad E. Hayashi, MD, MPH & TM
